The 4th National Congress of Minimally Invasive Surgery in Gynecology

CONGRESS PROGRAM

Timisoara, Romania

Dear Participants,

*It is with great honour and enthusiasm that we welcome you to the **4th National Congress of Minimally Invasive Surgery in Gynecology**, a landmark event dedicated to advancing excellence and innovation in women's health. This congress brings together distinguished clinicians, researchers, and educators from Romania and abroad to exchange ideas, present the latest scientific evidence, and share clinical expertise in the evolving field of minimally invasive gynecologic surgery.*

*This year's edition will take place between **November 12–13, 2025**, at **Hotel Lido, Timișoara**. It will open with the **Pre-Congress Course on Minimally Invasive Surgery in Gynecology**, offering participants an exceptional opportunity for hands-on training and direct interaction with leading experts. The subsequent sessions - comprising plenary lectures, oral communications, poster presentations, and symposia - will highlight the most recent developments in laparoscopic, hysteroscopic, robotic, and imaging-guided procedures, as well as their translational impact on personalised patient care.*

*Beyond the scientific sessions, this event provides a platform for **interdisciplinary dialogue and professional networking**, fostering stronger academic partnerships among institutions worldwide. By joining this congress, participants not only gain exposure to state-of-the-art surgical approaches but also contribute to shaping the future directions of gynecologic surgery.*

We extend our gratitude to all invited speakers, moderators, scientific contributors, and participants for their invaluable role in the success of this event. We also thank our institutional partners and sponsors for their continuous support in promoting medical education and innovation.

Welcome to Timișoara - a city of knowledge, innovation, and friendship!

May this congress be both scientifically enriching and personally inspiring.

With warm regards,

Prof. Univ. Dr Marius Craina

Prof. Univ. Dr Zoran Popa
